PRESS RELEASE

FOR IMMEDIATE RELEASE:

Gig Werks wins Business Intelligence Award

Microsoft Announces 2008 Fiscal Year New York/New Jersey Area Partner Awards Winners

June 2008, New York, NY – On June 3rd, 2008 Gig-Werks received the Excellence in Business Productivity Optimization for Best Business Intelligence Solutions of the year from Microsoft NY/NJ. This award was given in recognition of Gig Werks outstanding work in the area of Business Intelligence, providing solutions that improve organizations by providing data consolidation, data warehousing, real time reporting, and business insight to all employees—leading to better, faster, and more relevant decisions for its clients.

Gig Werks is honored to be recognized for their hard work and will continue to provide leading edge Business Intelligence solutions to its clients. This is the 2nd award Gig Werks has received this year from Microsoft.

Business Intelligence

Business Intelligence provides flexible and functional solutions that extend from the individual to the team to the entire organization. It accommodates the different needs of people in your organization and incorporates all the types of information; both structured and unstructured, people use to make decisions.

These solutions include data warehousing, reporting and analysis, and performance management products and toolsets that can enhance productivity, foster confident decision making, reduce the complexity of organizing and distributing information, and improve your bottom line.

About Gig Werks

Gig Werks, a Microsoft Gold Certified Partner, draws upon its expertise in Advanced Integration, Custom Application Development and Microsoft Office SharePoint Server 2007 to provide clients with secure, connected solutions that streamline business processes and yield maximum returns on investment.

For Immediate Release June 3rd, 2008
