PRESS RELEASE

FOR IMMEDIATE RELEASE:

Gig Werks and TermSet Partner to Offer Automated Metadata & Document Management Solutions for Office 365 & SharePoint

NEW YORK – September 30, 2015 - Gig Werks partners with TermSet to offer to offer automated metadata & document management solutions for Office 365 & SharePoint. This partnership allows Gig Werks to continue to expand on the high impact, high value solutions it delivers to its clients.

Gig Werks understands that to create successful business solutions that drive adoption within the enterprise; user experience is everything. In support of that edict, Gig Werks partners with the best Independent Software Vendors (ISV) in the industry such as TermSet which add significant value to SharePoint solutions, whether on-premise or in the cloud with Office 365. The TermSet product allows customers to easily take full advantage of SharePoint metadata for enhanced search without placing any burden on business users or the IT department.

Joe Giegerich, President of Gig Werks commented, "Partnering with TermSet offers immediate impact and benefit to a number of our clients, particularly those looking to manage content and drive user adoption in the enterprise. With Gig Werks advanced SharePoint business solutions and new ProjectReady Applications, having a product that drives the value and customers use of SharePoint both on-premise & in the cloud is essential. Gig Werks is excited to announce this partnership and the opportunity to bring TermSet to the market"

TermSet CTO Brendan Clarke remarked, "We are delighted to have Gig Werks as part of the TermSet family. Gig Werks are a truly valuable partner and will help in delivering customer projects and success stories in helping organisations drive business value from their investment into SharePoint either in O365 or On Premises.
