PRESS RELEASE

FOR IMMEDIATE RELEASE:

Gig Werks and Metalogix partner to offer advanced Solutions in SharePoint Migration, Replication, and Storage.

NEW YORK – February 7th, 2013 - Gig Werks has recently partnered with Metalogix to offer advanced SharePoint solutions around SharePoint Migration, Replication, and Storage.

This partnership allows Gig Werks to continue to expand on the high impact, high value solutions it delivers to its clients. Metalogix's product set and specializations enhances Gig Werks' services offering around SharePoint and has enormous potential for both firms and its clients, especially those looking to make the move to the latest SharePoint release, SharePoint 2013.

Joe Giegerich, President of Gig Werks, commented "The Metalogix product set of Content Matrix, StoragePoint, and Replicator offer immediate impact and potential benefit to a number of our clients. Traditionally, Gig Werks has understood the power of strategic relationships with key technology partners. Our partnership with Metalogix will be among the most beneficial yet."

About Gig Werks
Gig Werks is an Award Winning SharePoint solution provider with certified expertise across all aspects of SharePoint. Gig Werks understands the true value of SharePoint is delivered through an architecture where the entire feature set works together. While each area of functionality is powerful on its own, the true power of the platform is realized when experts with deep knowledge of the entire product set develop a comprehensive customer solution – where the whole is greater than the sum of its parts. Gig Werks provides clients with secure, connected solutions that streamline business processes and yield maximum returns on investment. For more information, visit **www.Gig-Werks.com** or follow us on Twitter **@GigWerks** or Facebook at **http://www.facebook.com/GigWerks**.

About Metalogix
Metalogix provides content infrastructure software to improve the use and performance of enterprise content.

Today, more than 7,500 customers rely on the Metalogix products to upgrade, migrate, organize, store, archive and replicate content on Microsoft SharePoint, Exchange and Cloud platforms. Metalogix has moved more than 50,000 terabytes of content – more than every other ISV in the marketplace combined.

For Immediate Release on January 17th, 2013

About Content Matrix

Metalogix Content Matrix is the most powerful way to upgrade, migrate and organize your SharePoint content. It is the evolution of the award-winning Metalogix Migration Manager – the most experienced and widely used SharePoint upgrade technology since 2001. Content Matrix provides a one-hop, high-speed and high-fidelity migration of content from any previous version of SharePoint at speeds 25 times faster than other 3rd party migration vendors.

About Replicator

Metalogix Replicator synchronizes content across multiple SharePoint farm locations, environments, and versions.

About StoragePoint

Metalogix StoragePoint allows you to externalize SharePoint content to slash storage cost, boost speed and simplify backup.

For Immediate Release on January 17th, 2013
