PRESS RELEASE
FOR IMMEDIATE RELEASE:

*Gig Werks Wins Microsoft's 2011 Technical Specialist Excellence Award for 2nd year in a row
Microsoft announces Gig Werks as the winner of the Area Partner Technical Specialist Excellence Award*

July 2011, New York, NY –Microsoft proudly announced the 2011 East Region Partner Award winners during a ceremony at the Microsoft Worldwide Partner Conference in Los Angeles, CA. “The Field Partner Awards Program gives Microsoft the opportunity to recognize its top regional partners at a global event. It acknowledges the extraordinary contributions of Microsoft partners serving small, mid-market and enterprise commercial customers throughout the past fiscal year,” said Jack Braman, Vice President-East Region, Small and Mid-market Solutions and Partners (SMS&P) for Microsoft.

Gig Werks was recognized with the Technical Specialist Excellence Award for the second year in a row. The award recognizes a partner with advanced Microsoft specialization that has demonstrated technical leadership and drove significant impact for customers, building solutions on the Microsoft stack with the understanding of interoperability, integration, and consistent technical architecture. Gig Werks was chosen amongst all the partners in the New York Metro area due to the exemplary work done for clients over the last year and in recognition of the organizations highly developed and skilled staff.

Joe Giegerich, President of Gig Werks, had this to say about the award:

“The fact that two years running Gig Werks has been identified as the top technical partner for our work in SharePoint is an award that recognizes everyone in our shop and the continued dedication to excellence their commitment represents.

With 13,000 partners in market, we know how difficult this recognition is to achieve and thank Microsoft for acknowledging Gig Werks efforts in our continued dedication to our craft. “
